Summary of the students' course evaluations

Apart from the repetition of content, this course deserves an 11/10 rating. I wholeheartedly recommend it! Adam's methods have profoundly aided me in honing my writing and presentation skills, a competence that will undoubtedly serve me well throughout my academic and professional journey. He is an exceptional teacher. The methodology employed is superb, the teaching quality is outstanding, and the course structure flows seamlessly.

Allowing an additional week for the presentation phase would be advantageous, facilitating the comprehensive viewing of all videos, meticulous graphic preparation, and a thorough rehearsal of the presentation process.

My skills in both writing an academic essay and presentation have improved to another league. I have always lacked the ability to properly think and plan for the structure of composing both essays and presentations but after this course I have a solid mental framework that I know that I will be using for the rest of my life.

The reason it didn't get maximum was that it feels like a lot of the content offered was repeated. Would be nice to have only one set of content to look at instead of re-watching hours of content that basically say the same thing as the previous ones!
I didn't really know what to expect, but I was for sure not expecting this much clearness and structure! Great job really, I had an easy time following the instructions and Adam is always very clear when explaining, and giving examples. I got the impression most of us in the class was thankful for the structure of the lessons and course in total. This is something that will help me in the future, because I will remember the course well.

Outside the repetition of content, it is an 11/10 course. Highly recommend it!
Adams methods have really helped me to develop my writing and presentations skills in a way that is going to help me for the rest of my academic and professional development. Exceptional teacher
Excellent method, an excellent teacher, and a very fluid course. It would be beneficial to have one more week for the presentation process in order to watch all the videos, prepare the graphics, and go through the process of presenting.
