Utvärderingsformer

Studenterna har haft möjlighet att skriva om förväntningar på kursen i ett brev till undervisande lärare. Kursen har utvärderats dels genom en tidig dialog med studenterna, dels genom en summativ kursvärdering i slutet av kursen.

Sammanfattning av studenternas kursvärderingar

Baserat på skalfrågorna är studenterna i huvudsak nöjda med kursen. Skalorna går från 1-6 (där 6 är det mest positiva värdet) och medelvärdena ligger på mellan 4,8 och 5,3 (se nedan).

Studenterna är som grupp nöjda med kursen som helhet. Studenterna upplever en positiv och tillåtande atmosfär i klassrummet. Lärarens insats prisas för sitt engagemang och förmåga att under tillåtande former utmana studenterna att tala. Studenterna är positiva till möjligheten att göra muntliga övningar/övningar kopplat till grammatik i grupper. Samtidigt efterfrågas fler lektioner, liksom möjligheter till mer muntliga dialoger. Kursen anses av några för omfattande i förhållande till dess storlek. Organisation och struktur verkar fungera bra.

Sammanfattning av lärarlagets utvärdering

I huvudsak instämmer lärarlaget med studenternas synpunkter. Kursen har fungerat väl.

Att studenterna önskar fler lektioner och språkkaféer är förståeligt och inget nytt. Lärarlaget inser behoven och kommer att söka efter alternativ för att lösa detta.

Inför denna kurs ändrades från två till en skriftlig tentamen. Detta kan ha bidragit till att den uppfattades som lite svårare. Tidigare har den första tentan fungerat som ett "mellansteg".

Analys och åtgärdsplan

- en åtgärd är att hjälpa studenterna dela in sig i studiegrupper vid kursstart.
- Gällande tentan är en åtgärd är att vara tydlig med omfattning.

Förslag till revidering av kursplan

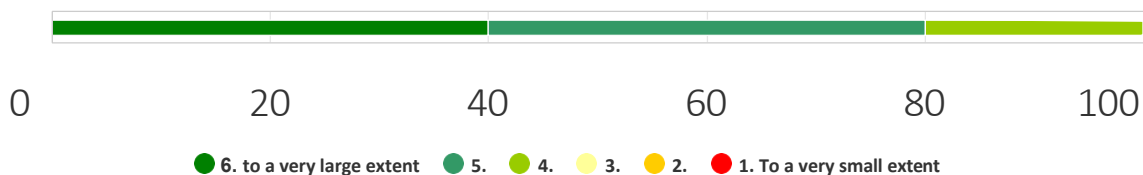

- Inga ändringar i nuläget

I would even say that this was even too much

Are there any aspects of the course that you have particularly appreciated?

Teresa is an excellent teacher with loads of patience and kindness. I also appreciated the speed but thoroughness of the course.

I really enjoyed the fun atmosphere that the teacher created in the class

The practical aspect of prototyping technologies.

The teacher explained effectively, and she assured that everybody understood.

Teresa was a brilliant teacher

the teacher is very rich in knowledge.

I really enjoy the teaching style, the songs we sing, and the teachers' attitude and patience.

We could have more in person classes

During the oral exam I found it difficult because the other students I was paired with only answered my questions but did not respond by asking me a question in return. I am not sure how this can be improved and while I did pass the exam I felt that I did not get an opportunity to answer the questions I had been practising during the course.

I think the amount of homework could be reduced, as we completed all the exercises from the first six units, some of which weren't really necessary and would have been more effective to do during class. Also, there was simply too much theory packed into the lessons. It might be better to add extra days or sessions to give us time to fully digest all the material

more lectures would be great and maybe a bit more clear explanation on what is exited, despite the effort of the teacher to try to make it clear we quite faced a bit of struggle to understand where we were heading.

improvement in the culture and society part. maybe giving book in swedish (at easy level) to further improve the language skills.

More interactive activities or oral exams.

It felt like too much theory was packed into just 14 lessons. Every lesson introduced new material, and we rarely had time to practice or reinforce what we had learned in previous ones. There was also a lot of homework, and quite often the exercises didn't support the theory from earlier lectures, but instead introduced new rules and concepts on top of what was already covered

I missed the first class as I was not yet given a space. I wonder if it would be possible to somehow make sure students know there is homework for each week. This may be a 'me' problem but if it is not said regularly then maybe it can be.
