	Kursrapporten är publicerad på kursens webbplats

Kursvärdering

Antal svar på obligatorisk kursvärdering	19
--	----

Obligatorisk kursvärdering har skett genom:

<input checked="" type="checkbox"/>	Endast standardmall via SSR (Sunet Survey and Report)
<input type="checkbox"/>	Standardmall utökad med egna frågor via SSR
<input type="checkbox"/>	I egen regi av kursansvarig
Om kursvärdering skett i egen regi av kursansvarig beskrivs tillvägagångssätt här.	

Eventuella ytterligare värderingsmoment som skett under kursen:

<input type="checkbox"/>	Separat enkät
<input type="checkbox"/>	Muntligt i helklass
<input type="checkbox"/>	Muntligt i mindre grupper
<input type="checkbox"/>	Annat sätt
Om ”annat sätt” är ikryssat ovan beskrivs tillvägagångssätt här.	

Kommentarer till kursvärderingar

<p>In total 19 out of 113 students have answered the survey, which is about 16.8%. Among the answers, here are the positive feedback and the aspects wished to improve:</p> <p>Postive feedback:</p> <ul style="list-style-type: none"> • Most of the students think that they have achieved the learning goals, which include all the knowledge points, e.g., building techniques, building process & management, sustainability etc., and also the skill development, such as analytical skills, academic writing, independent and team works etc. • Many lectures were interesting. • There are many engaged and caring teachers. • It has given a good overview of the coming years' education within this field. <p>Things to improve:</p> <ul style="list-style-type: none"> • The structure and course materials of the course can be improved. • The course is very board. • Teachers have different styles. • Problems in the group work • Some feedback were delayed

It is important that we keep the positive parts of the course. We will continue with various types of teaching methods, such as study visits, workshops, practices, and various types of assignments to encourage students' individual and group work.

We shall also support the students more with communications and feedback. We shall support students' group work better.

Examinationsresultat

x	Examinationsresultat ser ut som förväntat
	Examinationsresultat avviker från förväntat
<p>The results of the examination (both the written exams and the assignments) are within the expectation of the teachers. Some students have done it very well. Some students expressed that the variety of assessment methods, including exams, assignment and oral presentations are appreciated. The assignments are seen as effective in demonstrating what the students have learned. The exam has a good coverage of the content of the course.</p> <p>The fact that the course content is broad makes it challenging for the students to comprehend everything and prepare for the written exam. As there are many teachers involved, the style of the teachings and the way of formulating the questions are also different. This might also be another challenge for the students.</p> <p>This year it is the first year that the exam took place digitally. It might have brought some extra challenge for the students.</p>	

Kursansvarigs rekommendationer och prioriteringar för kursutveckling

Besides of the regular teachings, we have introduced more activities for the students to encourage and support learning, which include lectures and workshops on

- Study techniques
- Group work
- Academic writing support
- Consultation moments
- Etc.

We have arranged study visits in the early stage to inspire the students to learn in this field.

We will continue with the contents that should engage and inspire the students in learning.

We will also work to improve the communication with the students, encourage them to communicate more with each other, support group work.
