### Compulsory course evaluation

|   |   |
|---|---|
| Number of responses to the compulsory course evaluation | 9 |
|---|---|

The compulsory course evaluation has been conducted through:

|   |   |
|---|---|
| X   | Standard template via Reflex                                    |
| <input type="checkbox"/>                              | Extended standard template with <i>own questions</i> via Reflex |
| <input type="checkbox"/>                              | Own evaluation method by the course coordinator                 |
| If own evaluation method was conducted, describe how: |   |

### Additional evaluations that were conducted during the course

|   |                                   |
|---|-----------------------------------|
| <input type="checkbox"/>                                | Separate survey                   |
| <input type="checkbox"/>                                | Oral evaluation in class          |
| <input type="checkbox"/>                                | Oral evaluation in smaller groups |
| <input type="checkbox"/>                                | Other evaluation method           |
| If other evaluation method was conducted, describe how: |                                   |

### Comments on the course evaluations

Unfortunately, the number of respondents (9 out of 68) is too low to draw broad conclusions. However, the feedback provided by the 9 respondents is highly positive, with all ratings exceeding 4 on a 1–5 scale. This indicates that the majority of respondents are satisfied with the course content and structure.

Considering the online format and the diverse educational backgrounds of the students, the evaluation results are very positive. The written comments are largely positive and do not include any shortages that need direct attention.

### Examination results

|                     |   |
|---------------------|---|
| x                   | Examination results are as expected     |
|                     | Examination results are not as expected |
| Write comments here |   |

### Recommendations and priorities for the course development

The course content is regularly updated to reflect the latest versions of .NET technologies. In the meantime, any constructive feedback from this evaluation will also be considered for further improvements.
