Course report Faculty of Technology and Society

This course report is based on student feedback and submitted course evaluations, exam results and the teacher's idea for further development. The course report is published on the course website and Canvas-site.

Course name	Internet of Things and People
Course code	DA274A
Semester	Ht21
Number of registered students	14
Course coordinator	Bahtijar Vogel

	Course report is published on Canvas-site
	Course report is published on course webpage

Compulsory course evaluation

Number of responses to the compulsory course evaluation	5

The compulsory course evaluation has been conducted through:

X	Standard template via SSR (Sunet Survey and Report)
	Extended standard template with *own questions* via SSR
	Own evaluation method by the course coordinator
If own evaluation method was conducted, describe how:	

Additional evaluations that were conducted during the course

	Separate survey
	Oral evaluation in class
	Oral evaluation in smaller groups
	Other evaluation method
If other evaluation method was conducted, describe how:	

Comments on the course evaluatio

The overall feedback from the students is positive! However, there are some things that we could try to improve this course for the next edition. For example, related to the Labs and tech talks that could be improved! And the project requirements could be available in advance!

Examination results

X	Examination results are as expected
	Examination results are not as expected

Recommendations and priorities for the course development

- More and in advance information for the course and its assignments
- In advance information about the project work, and better articulation of the requirements for it
- Aligning the course with more problem-based learning aspects
- Better structuring of the Labs and Tech talks.
