Course report Faculty of Technology and Society

This course report is based on student feedback and submitted course evaluations, exam results and the teacher's idea for further development. The course report is published on the course website and Canvas-site.

Course name	**Praktikkurs inom IT**
Course code	DA386A
Semester	Ht24
Number of registered students	36
Course coordinator	Nancy Russo

X3	Course report is published on Canvas-site
	Course report is published on course webpage

Compulsory course evaluation

Number of responses to the compulsory course evaluation	3

The compulsory course evaluation has been conducted through:

X	Standard template via Reflex
	Extended standard template with *own questions* via Reflex
	Own evaluation method by the course coordinator
If own evaluation method was conducted, describe how:	

Additional evaluations that were conducted during the course

	Separate survey
	Oral evaluation in class
	Oral evaluation in smaller groups
X	Other evaluation method
If other evaluation method was conducted, describe how: Students provided voluntary feedback in seminar sessions and in their written blog posts.	

Comments on the course evaluations

The three evaluations were overwhelmingly positive, with no comments. Overall, while students complained when first told that they would have to read an reflect on a book during the term, in the end most found it beneficial.

Examination results

X	Examination results are as expected
	Examination results are not as expected

Recommendations and priorities for the course development

All students should participate in the seminars. An alternative written assignment should only be provided if the student is ill or otherwise unable to attend the seminar (of which several sessions are offered). In future iterations of the course I recommend eliminating the overlap between blog posts and seminar preparation topics and reducing the number of blog posts. An electronically-signable contract should be provided.
