Comments on the course evaluations

Good comments, especially on the flipped classroom approach.

Examination results

	Examination results are as expected
x	Examination results are not as expected
Results slightly worse than expected. Maybe the exam was a tad too difficult.	

Recommendations and priorities for the course development

Develop the flipped classroom approach further. Set specific questions for the seminar, maybe 2-3 for the online ones and 3-5 for the on-campus seminars. This should attract the students to these seminars.
