

Course report Faculty of Technology and Society

This course report is based on student feedback and submitted course evaluations, exam results and the teacher's idea for further development. The course report is published on the course website and Canvas-site.

Course name	Advanced Programming
Course code	DA405E
Semester	Ht24
Number of registered students	24
Course coordinator	Bengt Nilsson

<input checked="" type="checkbox"/>	Course report is published on Canvas-site
<input checked="" type="checkbox"/>	Course report is published on course webpage

Compulsory course evaluation

Number of responses to the compulsory course evaluation	7
---	---

The compulsory course evaluation has been conducted through:

<input checked="" type="checkbox"/>	Standard template via Reflex
<input type="checkbox"/>	Extended standard template with <i>own questions</i> via Reflex
<input type="checkbox"/>	Own evaluation method by the course coordinator
If own evaluation method was conducted, describe how:	

Additional evaluations that were conducted during the course

<input type="checkbox"/>	Separate survey
<input checked="" type="checkbox"/>	Oral evaluation in class
<input type="checkbox"/>	Oral evaluation in smaller groups
<input type="checkbox"/>	Other evaluation method
If other evaluation method was conducted, describe how:	
orally during the last lecture	

Comments on the course evaluations

Difficult and challenging but interesting is a common comment. Complaints that the new programming challenges are too difficult. I do not think so, but I will review some of them for next year.

Also some comments to have more live lectures. I think the flipped classroom approach has worked well but it is clear it does not suit everybody.

Examination results

x	Examination results are as expected
	Examination results are not as expected
<p>Write comments here</p> <p>7/14 passes is not great on a first exam but is consistent with previous years. 4/6 passes on the second exam is also better than one can expect. That makes a total of 11/14 after two exams which I think is good.</p>	

Recommendations and priorities for the course development

Perhaps change some of the programming assignments. Will review them for next year.
