

Course report Faculty of Technology and Society

This course report is based on student feedback and submitted course evaluations, exam results and the teacher's idea for further development. The course report is published on the course website and Canvas-site.

Course name	Examensprojekt: Informationsarkitekt och systemutvecklare
Course code	DA485A
Semester	Ht24
Number of	99
registered students	
Course coordinator	Nancy Russo

Y	K	Course report is published on Canvas-site	
		Course report is published on course webpage	

Compulsory course evaluation

The compulsory course evaluation has been conducted through:

X	Standard template via Reflex	
	Extended standard template with own questions via Reflex	
	Own evaluation method by the course coordinator	
If own evaluation method was conducted, describe how:		

Additional evaluations that were conducted during the course

	Separate survey
	Oral evaluation in class
X	Oral evaluation in smaller groups
	Other evaluation method

If other evaluation method was conducted, describe how: In reflection seminars at the end of the course students were asked for feedback about the course. They provided some good ideas such as reinstating the cross group supervision or having a class Discord group to share information and ask questions, especially technical questions. Regarding technical issues, students were in favor of having available help sessions that could be booked with a knowledgeable source. Suggestions were also made to improve client selection and education. Good things to continue are the team building activities and flexible supervision.

Comments on the course evaluations

Write comments here

The written course evaluations were quite positive in how the course met the learning objectives.

Examination results

X	Examination results are as expected	
	Examination results are not as expected	
Write comments here		

Recommendations and priorities for the course development

Future teachers should initiate more cross-group	communication via meetings
and/or Discord.
