

## Course report Faculty of Technology and Society

This course report is based on student feedback and submitted course evaluations, exam results and the teacher's idea for further development. The course report is published on the course website and Canvas-site.

<b>Course name</b>	Data-Driven Methodologies for Software Development
<b>Course code</b>	DA635E
<b>Semester</b>	VT25
<b>Number of registered students</b>	36
<b>Course coordinator</b>	Zahra Ghaffari Holmgren

<input type="checkbox"/>	Course report is published on Canvas-site
<input type="checkbox"/>	Course report is published on course webpage

### Compulsory course evaluation

Number of responses to the compulsory course evaluation	3
---------------------------------------------------------	---

The compulsory course evaluation has been conducted through:

<input checked="" type="checkbox"/>	Standard template via Reflex
<input type="checkbox"/>	Extended standard template with <i>own questions</i> via Reflex
<input type="checkbox"/>	Own evaluation method by the course coordinator
If own evaluation method was conducted, describe how:	

### Additional evaluations that were conducted during the course

<input type="checkbox"/>	Separate survey
<input checked="" type="checkbox"/>	Oral evaluation in class
<input type="checkbox"/>	Oral evaluation in smaller groups
<input type="checkbox"/>	Other evaluation method
If other evaluation method was conducted, describe how:	

### Comments on the course evaluations

The course evaluation was only submitted by 3 students out of 36 (i.e., 8,3 %). Therefore it is difficult to make any conclusions from the course evaluation.

The results are different compared to the evaluation we made at the summary session. Most of the students were very satisfied with the content and the assignments. And with the content of the lectures and discussions.

#### **Examination results**

X	Examination results are as expected
	Examination results are not as expected

#### **Recommendations and priorities for the course development**

It was a comment on the TDD-lab that we need to look into. The lab is redundant for the system development students from MAU and we will have another lab assignment for those students who already did complete that one.
