### Sammanfattning av studenternas kursvärderingar

In a Sunet evaluation of our course module, one student responded to a high degree about the course along a number of parameters, the most noteworthy of which are presented below:

(1, 2, 4) The course received a high rating regarding scaffolding while also allowing students to take charge of their own learning.

(5) The student indicated that the learning outcomes were met to a high degree.

(7, 8) The course received was rated for clarity and organization to a high degree.

(8, 9) Instructor feedback was rated as being clear and informative to a high degree.

(8, 10) The student also expressed a high regard for the literature.

No points of critique were offered. Only one comment was added which was that the student appreciated learning about phonetics and corpora.

### **Sammanfattning av lärarlagets utvärdering, analys, and åtgärdsplan**

The response rate was unfortunately very low, so these comments cannot be taken to be representative of the class. But at least it can be said that this one student seemed to be pleased with the class and expressed that he/she learned quite a bit from the course activities and assignments. There is thus not much evidence on which to base any major changes.
