Utvärderingsformer/Forms of evaluation

The course has been evaluated through formative assessment both oral and written. No summative evaluation was deemed necessary due to the limited number of students.

Sammanfattning av studenternas kursvärderingar/Summary of the students' evaluations

Overall, the students seem to be pleased with the course, although only one left a written comment to the questions asked. Generally though, the answers on the multiple choice questions, have all been on the

positive side of the scale. The lack of comments makes it hard to draw any further conclusions. One concern is the low number of answers submitted.

Sammanfattning av lärarlagets utvärdering/Summary of the teacher team's evaluation

The general feeling is that the format and structure of the course has worked well. We have achieved the aim of creating an inclusive and engaging atmosphere based on regular seminars and a process based on close collaboration. The assessments, a written paper and an oral presentation also worked well and this is also shown in the student's results.

Analys/Analysis

Overall the course have worked well. Some of the literature was a challenge, which seem to have been appreciated among the students.

Åtgärdsplan/Plan of action

We are not planning any major changes to the course at this point.

Förslag till revidering av kursplan/Suggestion for revised curriculum

Nothing more than a possible change of some of the literature.
