Formative course evaluation, for example dialogue during the course (optional)	Approx. number of students who participated in formative course evaluation(s): 12
Summative course evaluation (obligatory) ☒ Only via Canvas ☐ Canvas and other form ☐ Only other form (written and/or oral)	Number of students who participated in the summative course evaluation: 2

Student's perspective (To be completed by the course coordinator)

Summary of the students' oral and written feedback: - The thesis work was the best part of the course - Remove the sit-in exam for module 1, adds no value to the research process (add/remove points as needed)

Teacher's perspective (To be completed by the course coordinator)

Summary of the teacher's views: - As the answers where so few it is hard to evaluate the answers to create changes. (add/remove points as needed)

Action plan (To be completed by the course coordinator)

The underlying analysis and the action plan should be based on a summary of the students' individual course evaluations, views from teachers in the course and the knowledge development in the research field. If identified problems are left without action, this should be motivated. The following changes are planned in the short and long term: WHAT should be done, WHO should do it and WHEN should it be done? - Continue with work on the quality of the course, for example by strengthening the link between method and thesis writing (add/remove points as needed)

Remember to orally feedback the results of the course evaluation to

- the students who have completed the course evaluation
- the students of the next course round, i.e. the next time the course is given
