## Template for course evaluations at Malmö University

*Revised at the meeting of Utbildningsberedningen the 24<sup>th</sup> of November 2015.*

---

*The course evaluation is an important tool in the development of courses and programs as well as securing the possibility of student influence. The structure of the course evaluation is described in *Policy för kvalitetsbygge: kursutvärdering* and must contain background information/key figures, a summary of the students' course evaluations including an analysis, plan of action and proposed changes to the syllabus. The course evaluation is then published together with other information on the course.*
