Student's perspective (To be completed by the course coordinator)

Summary of the students' oral and written feedback: No issues were raised during the lead up or running of the course in the programråd. Only one student completed the survey, and the comment was asking for the exam schedule to be earlier, which is unfortunately not possible.

Teacher's perspective (To be completed by the course coordinator)

Summary of the teacher's views: The course seemed to run smoothly, but then it mostly comes down to well-equipped students and good supervision process. The course itself is relatively bare. There was a good completion rate by students this year and the projects are mature and well-executed. There was also good peer-attendance during the exams, reflecting a healthy class culture. A few students opted to work in the second-year studio, and it is good this was possible to arrange again.

Action plan (To be completed by the course coordinator)

Something to revise for next year is the template. Specifically, giving ideas about how to structure the written report according to the kind of project.
