

COURSE REPORT – Summary of course evaluation

Background information (To be completed by the course administrator)

Course LADOK code: KD646A	Scope (hp): 15,0 hp
Course title: Design-based Research	
Course coordinator: Linde Per	Number of registered students: 8
Semester in which the course is conducted: VT26	
Is the course an independent course, programme course or contract course? If the course has been completed within a programme, enter the programme name. TAIND-HT2024	

Forms of evaluation and feedback (To be completed by the course coordinator)

Formative course evaluation, for example dialogue during the course (optional)	Approx. number of students who participated in formative course evaluation(s):
Summative course evaluation (obligatory) <input type="checkbox"/> Only via Canvas <input checked="" type="checkbox"/> Canvas and other form <input type="checkbox"/> Only other form (written and/or oral)	Number of students who participated in the summative course evaluation: 4 out of 8

Student's perspective (To be completed by the course coordinator)

Summary of the students' oral and written feedback: <ul style="list-style-type: none"> • The evaluation received highest grading in most questions • It prepared well for the thesis projects • Content and assignments were appreciated • It was welcome with individual reflections in relation to other courses being built on group work • It was proposed in several inputs to give some part of the course already in the first year • The only negative feedback was the (little) teaching hours
--

Teacher's perspective (To be completed by the course coordinator)

Summary of the teacher's views: <ul style="list-style-type: none"> • We are satisfied with the course and feel that we have a good format to repeat with few changes • The small course budget, ie teaching hours, is an enigma. I understand that the course budget is small when there's only 8 students. But giving a 10-week course with only 100 teaching hours is very hard.

Action plan (To be completed by the course coordinator)

Very small changes are expected
The following changes are planned in the short and long term:

WHAT should be done, WHO should do it and WHEN should it be done?

- One or two more hands-on workshops will be implemented for next year. Especially a practical workshop on design experiments.

Remember to orally feedback the results of the course evaluation to

- the students who have completed the course evaluation
- the students of the next course round, i.e. the next time the course is given
