Student's perspective (To be completed by the course coordinator)

Summary of the students' oral and written feedback:

Unfortunately I received no feedback through the online course evaluation. We did get a chance to hear how the students were doing during the normally-scheduled program advisory meeting, but there were no concerns expressed at that time.

Teacher's perspective (To be completed by the course coordinator)

Summary of the teacher's views:

This year we did not organize a first-draft peer review, as we did last year. I will probably reinstate that in VT27.

Action plan (To be completed by the course coordinator)

The underlaying analysis and the action plan should be based on a summary of the students' individual course evaluations, views from teachers in the course and the knowledge development in the research field. If identified problems are left without action, this should be motivated.

The following changes are planned in the short and long term:
WHAT should be done, WHO should do it and WHEN should it be done?

Reinstate first draft peer review in the first week of May. This will be handled on Canvas.

Remember to orally feedback the results of the course evaluation to

- the students who have completed the course evaluation
- the students of the next course round, i.e. the next time the course is given
