Teacher's perspective (To be completed by the course coordinator)

Summary of the teacher's views/Results: (The comments on the course's implementation and the results based on an assessment of the students' actual learning outcomes in relation to the intended learning outcomes, are summarised here. Both success factors and problems are identified).

We offered the DP course in the fall as a test to see whether it makes sense to have two thesis courses per year (VT being the main one with 50+ students). In the end, only two students

submitted their thesis in January 2023-and both were students who originally registered for the VT22 course. I am hoping that 3 of the 5 students who registered for the HT22 course will submit their thesis in May 2023 under the VT23 course. I have had extensive discussions with Louise Löfqvist about the course of action and whether it makes sense to offer a separate HT DP course or stretch the 3 examinations across a longer period (June, August & January).

Analysis and action plan (To be completed by the course coordinator)

Analysis: (The course coordinator is responsible for ensuring that the analysis is based on a summary of the students' individual course evaluations, views from relevant teachers and course administrators, knowledge development in the field of research and that this analysis is done in collaboration with the teaching team.)

(see above)

Action plan: (The changes planned to be made in the short and long term are stated here, as well as the timetable for when the actions are planned be carried out and who is responsible for the implementation. If identified problems are left without action, this should be justified. The follow- up of proposed measures according to the previous course report(s) is presented here.)

(see above)
