Course report Faculty of Technology and Society

This course report is based on student feedback and submitted course evaluations, exam results and the teacher's idea for further development. The course report is published on the course website and Canvas-site.

Course name	Modeling and Simulation in Matlab/GNU Octave
Course code	MA211A
Semester	Ht23
Number of registered students	3
Course coordinator	Per Jönsson

	Course report is published on Canvas-site
	Course report is published on course webpage

Compulsory course evaluation

Number of responses to the compulsory course evaluation	1

The compulsory course evaluation has been conducted through:

X	Standard template via Reflex
	Extended standard template with *own questions* via Reflex
	Own evaluation method by the course coordinator
If own evaluation method was conducted, describe how:	

Additional evaluations that were conducted during the course

	Separate survey
	Oral evaluation in class
	Oral evaluation in smaller groups
	Other evaluation method
If other evaluation method was conducted, describe how:	

Comments on the course evaluations

Kursutvärderingen ger uttryck för att kursen var givande och att den uppmanade till att ta eget ansvar och planera sitt lärande. Upplägget uppskattades också.

Examination results

X	Examination results are as expected
	Examination results are not as expected

Jag uppfattar att studenterna har lärt sig väldigt mycket under kursen och jag är mycket nöjd med utfallet.

Recommendations and priorities for the course development

Kursen kan med fördel baseras göras om till Python, vilket idag är det dominerande programmerings- och modelleringsspråket.
