Student's perspective (To be completed by the course coordinator)

Summary of the students' course evaluations: (The five university-wide questions should be included. Compilation from digital questionnaires can be appended.)

Teacher's perspective (To be completed by the course coordinator)

Summary of the teacher's views/Results: (The comments on the course's implementation and the results based on an assessment of the students' actual learning outcomes in relation to the intended learning outcomes, are summarised here. Both success factors and problems are identified).

As the sole teacher on the course, I feel the students' actual learning outcomes were met in comparison to the intended learning outcomes. The only problem we had relates to on-going loud building work in Orkanen which disrupted our seminars quite a bit. The students were understanding but it was difficult to hear each student speak due to this noise. I'm happy with the results of the course, the students engaged well with the material and participation was very good in both lectures and seminars. Students took critique well and

improved their assignments if asked. The students worked very well in group work and there were no major issues with either independent or group work.

Analysis and action plan (To be completed by the course coordinator)

Analysis: (The course coordinator is responsible for ensuring that the analysis is based on a summary of the students' individual course evaluations, views from relevant teachers and course administrators, knowledge development in the field of research and that this analysis is done in collaboration with the teaching team.)

Action plan: (The changes planned to be made in the short and long term are stated here, as well as the timetable for when the actions are planned be carried out and who is responsible for the implementation. If identified problems are left without action, this should be justified. The follow- up of proposed measures according to the previous course report(s) is presented here.)

As far as I am aware, this course will not run again next year. If it were to run the main change that is needed is more time. The course took place over a span of four/five weeks. This was quite a tightly packed schedule and put pressure on the students. If we had more time, students could have thought a little more about their assignments and I would have had more time to give feedback. I felt it was important to give feedback on the first written assignment before the deadline of the second assignment so students could learn from their mistakes and implement changes to their approaches for the second assignment. This proved to be a big undertaking for me. I managed to get the assignments graded and commented on in time but would have liked more time to go into more detail with each assignment in terms of feedback.
