- What has been especially good about the course? Comments: rules and instructions were clear, the seminars, a lot of flexibility and autonomous work and research.

- What can be developed in the course? Comments: There could be better instructions for the thesis, for example how much space should the literature review, theory and method take up etc, I think there should be multiple examiners at the defence as your result otherwise just depend on one sole teacher and it can happen not to be very fair in terms of results and grading.

- How many hours/week have you spent on your studies? Between 20-30 hours: 2 students. 40 hours or more: 1 student

- Please summarise your overall experience of the learning infrastructure. Comments: the university facilities are top, modern, comfortable and beautiful. The library staff is very helpful. Evertything went about very smoothly.
