

## COURSE REPORT – Summary of course evaluation

The course report is a summary of the course evaluation. The course evaluation takes into account the students' course evaluations, the study administration's views, the teachers' views, and the course outcome - ie the students' actual results, course completion, and conditions for course implementation such as teaching and supervision time, premises and support functions. The course report also contains an analysis and development/action plan for the course.

The course report forms the basis for feedback to students and follow-up in quality dialogues both in the education-centered and in the university-wide quality work.

### **Teacher's perspective (To be completed by the course coordinator)**

**Summary of the teacher's views/Results:** (The comments on the course's implementation and the results based on an assessment of the students' actual learning outcomes in relation to the intended learning outcomes, are summarised here. Both success factors and problems are identified).

The students' concerns regarding zoom lectures are something that should be avoided next time and this was due to teachers' mobility.

The issue with term running into mid January is coming back every year, and this is unfortunately out of control for the program.

The wish for more focus on environmental concerns is something that has been considered and could fit into the module on urban trends and strategies.

### **Analysis and action plan (To be completed by the course coordinator)**

**Analysis:** (The course coordinator is responsible for ensuring that the analysis is based on a summary of the students' individual course evaluations, views from relevant teachers and course administrators, knowledge development in the field of research and that this analysis is done in collaboration with the teaching team.)

See above

**Action plan:** (The changes planned to be made in the short and long term are stated here, as well as the timetable for when the actions are planned be carried out and who is responsible for the implementation. If identified problems are left without action, this should be justified. The follow-up of proposed measures according to the previous course report(s) is presented here.)

See above

### **Publishing and archiving (To be handled by the course administrator)**

The course report is published and archived according to the university's instructions.

The students are informed about the publication.

The course report is shared with the programme coordinator (if applicable) and saved according to any additional requests on behalf of the department.
