

## COURSE REPORT – Summary of course evaluation

The course report is a summary of the course evaluation. The course evaluation takes into account the students' course evaluations, the study administration's views, the teachers' views, and the course outcome - ie the students' actual results, course completion, and conditions for course implementation such as teaching and supervision time, premises and support functions. The course report also contains an analysis and development/action plan for the course.

The course report forms the basis for feedback to students and follow-up in quality dialogues both in the education-centered and in the university-wide quality work.

## **Teacher's perspective (To be completed by the course coordinator)**

**Summary of the teacher's views/Results:** (The comments on the course's implementation and the results based on an assessment of the students' actual learning outcomes in relation to the intended learning outcomes, are summarised here. Both success factors and problems are identified). **Overall, supervisors and examiners agreed that the course went well. This year, more students than normally delayed the submission of their thesis until August.**

## **Analysis and action plan (To be completed by the course coordinator)**

**Analysis:** (The course coordinator is responsible for ensuring that the analysis is based on a summary of the students' individual course evaluations, views from relevant teachers and course administrators, knowledge development in the field of research and that this analysis is done in collaboration with the teaching team.)

**Overall, the course went well. This year there were no group seminars, due to reduction of teaching time. This lack was pointed out by students and was similarly regretted by the teachers' core team.**

**Action plan:** (The changes planned to be made in the short and long term are stated here, as well as the timetable for when the actions are planned be carried out and who is responsible for the implementation. If identified problems are left without action, this should be justified. The follow-up of proposed measures according to the previous course report(s) is presented here.)

**The course is planned to continue based on individual supervision, which is appreciated by the students. We will look into why more students than normally delayed their submission to August, although it could be just a coincidence. We plan to reduce the number of credits for participation in seminars, due to the diminished time spent on seminars in the course. We intend, however, to organize group seminars during the course again, in the coming year.**

## **Publishing and archiving (To be handled by the course administrator)**

The course report is published and archived according to the university's instructions.

The students are informed about the publication.

The course report is shared with the programme coordinator (if applicable) and saved according to any additional requests on behalf of the department.
